DEFENCE TAPE RANGE

AT27 - Translucent Repair Tape

A superior quality fire retardant, self extinguishing insulation tape suitable for general electrical insulation work.

Conforms to DEF STAN. reference 81-145/3

Features

- Translucent
- Flame retardant and self extinguishing
- Conformable
- High temperature resistant
- Water and UV Resistant
- Abrasion Resistant

Applications

- Temporary holding of rivets during aircraft maintenance and repair
- Protection of documents and maps
- Protection of painted surfaces
- Protection of labels in extreme environments

AT30 - Polythene Tape

This polythene tape is great to use all year round thanks to strong resistance to water and abrasion.

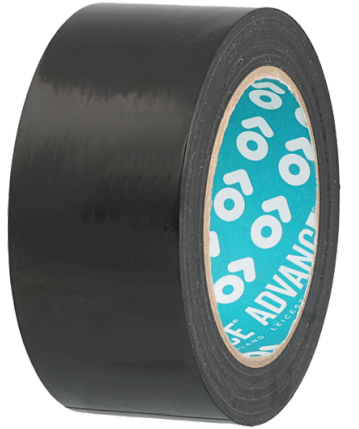

Conforms to DEF. STAN. reference 81-145 / 1

Features

- Easy unwind
- Conformable
- Extreme temperature resistance
- Water resistant
- Abrasion resistant

Applications

- Joining and sealing polyethylene sheeting.
- Waterproofing and sealing

AT121 - Rayon Cloth Tape

The tape is not only biodegradable, it also has a Neutral pH value and is unlikely to react with surfaces it is applied to.

Conforms to DEF. STAN. reference 81-145 / 2

Features

- Biodegradable
- Strong
- Abrasion resistant
- Conformable
- Writable surface

Applications

- Strapping of equipment handles
- Binding of nylon cords on military parachutes
- Reinforcement and sealing
- Abrasion protection

AT160 - Premium Quality Matt Waterproof Cloth Tape

Suitable for long term outdoor exposure, this tape offers high resistance against punctures and adverse weather conditions.

Conforms to DEF. STAN. reference 81-145 2a

Features

- Very strong
- Conformable
- Water resistant
- Abrasion and puncture resistant
- Very good long term resistance to outdoor exposure
- Wide colour range

Applications

- Protection of turbine blades during refurbishment.
- Joining heavy duty PE sheeting.
- Abrasion and damage protection
- Waterproofing

AT180 - Premium Industrial Waterproof Cloth Tape

AT180 is a highly versatile cloth tape that performs exceptionally well in external conditions.

Conforms to DEF. STAN. reference 81-145 2a

Features

- Strong
- High tack
- Very long term outdoor exposure
- Clean peel from most surfaces*
- Water resistant
- Abrasion resistant

Applications

- Masking off during cleaning.
- Abrasion and damage protection of equipment.
- Temporary repairs.
- To create waterproof closures around containers.
